World's  
**FIRST**

Sunreef Supreme 68

Sunreef Supreme 68 architecture revisits the way catamarans have been so far designed. A new, radical of the superstructure allows to keep the saloon and exterior deck on the same level.

# The Venue

# ITEMS ON BOARD

## Amenities

Internal & External Stereo System  
Karaoke System  
Fully Equipped Kitchen  
Television

## Others

Safety Equipment & Life Raft  
Icebox  
Fridge

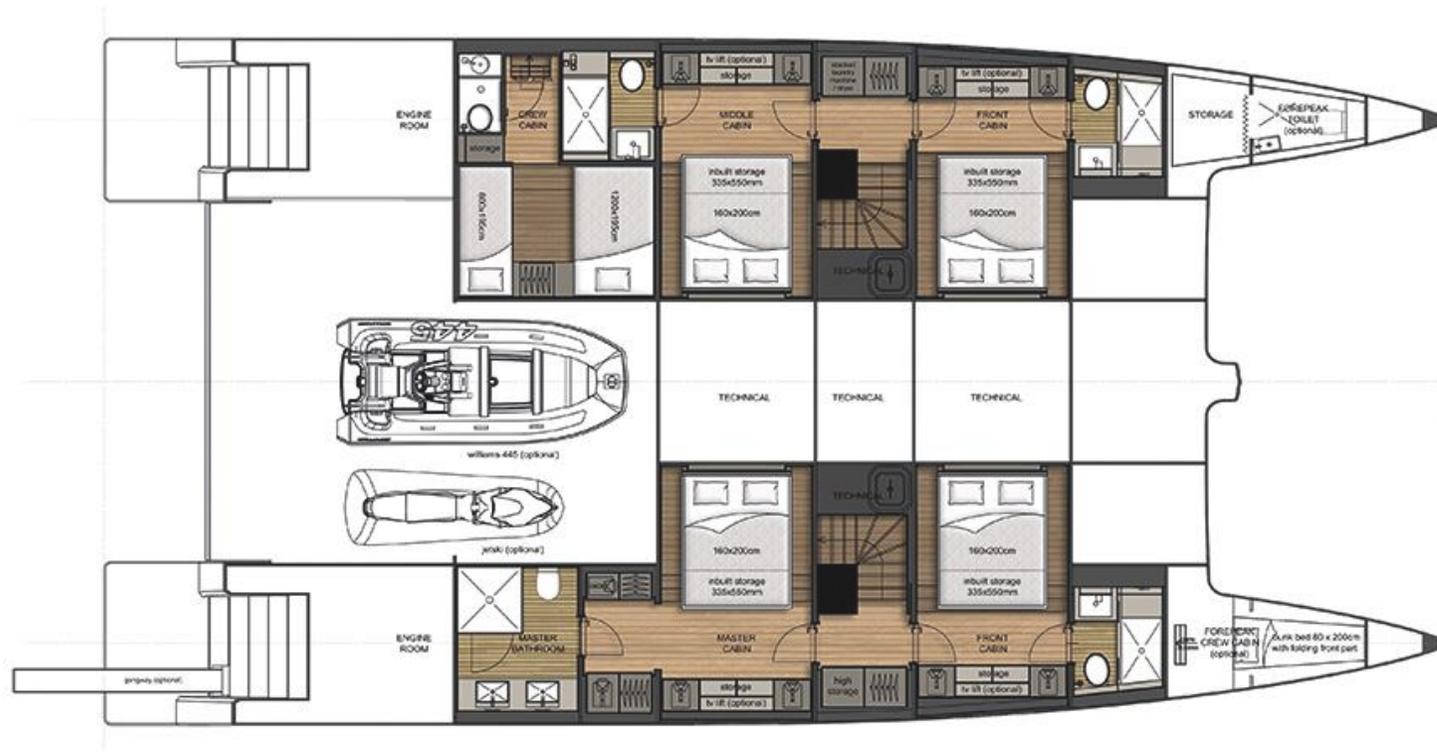

## Entertainment

Water Sports Equipment

## Key Features

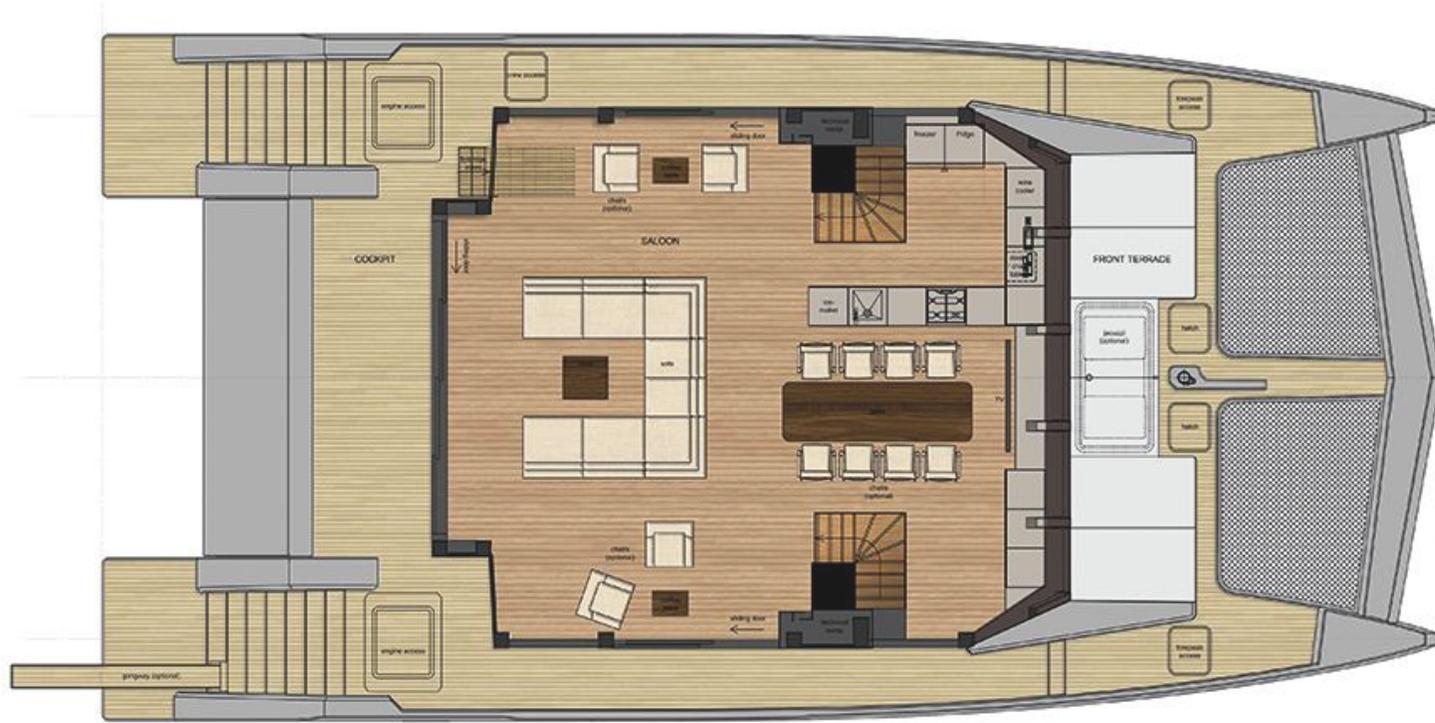

Wi-Fi  
Mahjong Table

# LOWER DECK

It comprises two beautifully appointed guest cabins with large private bathrooms with stone tiles finishing and two voluminous master suites. The boat is equipped with an aft garage - featured on all the Sunreef Supreme 68's. This voluminous space allows to conveniently store a 5m tender and up to two jet-skis, diving gear and sails. The garage door, when lowered, levels with the yacht's aft platforms to create an exterior lounging and sunbathing space. The boat's mast is fixed at flybridge level with a carbon-made transversal arch-shaped beam - an innovative system designed to keep the saloon's surface entirely open.

# INTERIOR

It puts the emphasis on music and entertainment. A karaoke system is installed and a large TV drops down from the saloon's ceiling. An upright piano is also placed in the bow part of the room. The yacht's front terrace is the place to relax on the large sun pads or to enjoy a bath on the Jacuzzi.

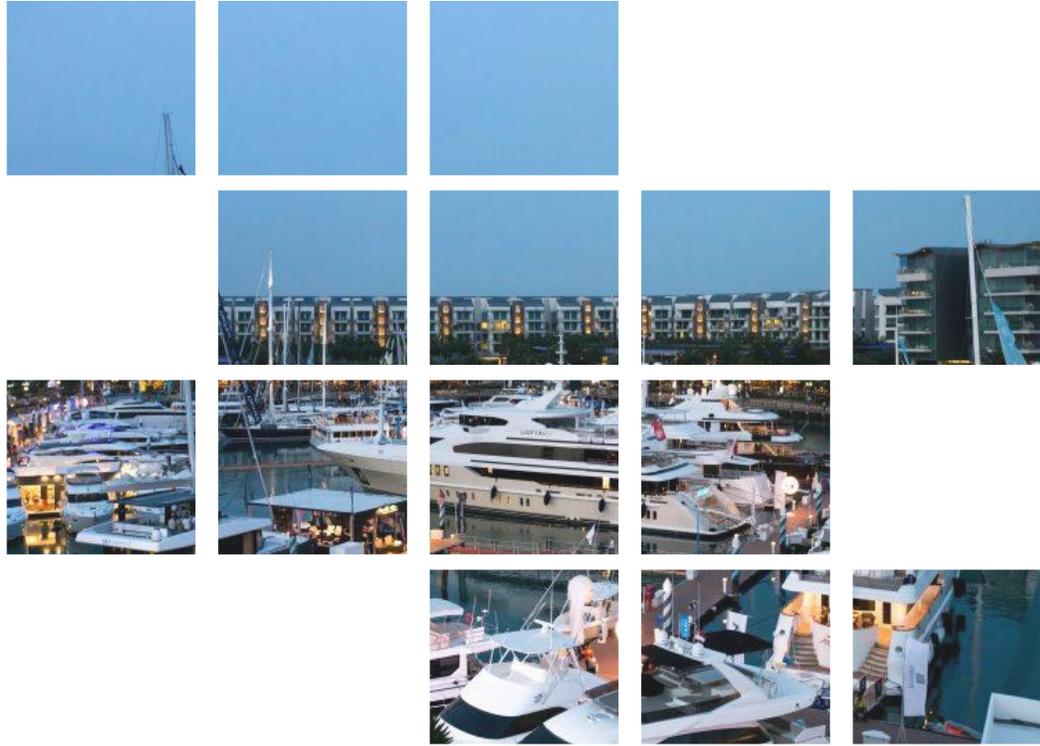

# UPPER DECK

It features an immense fly bridge topped with an elegant bimini. The scenic area is fitted with a bar, a large sofa and mattresses to obtain a vast dining and lounging space of 65m<sup>2</sup>.
